

## Department of Computer Science

Computer Science is one of the core subjects for the three groups namely B.Sc. - MPCs, MSCs and MECs. If we have to name this era in which we are living, we have to name it as the Digital Age. Computer programmes penetrate every aspect of our lives. Computer Science students have a pretty good chance of being professionally employed. Problems in science, engineering, health care and so many other areas can be solved by computers. Computer science is the combination of principles, theories and applications of the technologies that underlie the access to information.

Sno	Name of the Faculty	Qualification	Area of Interest	Photo
1	S.Jyothsna,HOD	MCA,M.tech(PhD)	Web Technologies &Cloud Computing	
2	B.Kalyani	MCA	C,C++ Programming & Networks	
3	G.Swathi	Mtech	Data Science	
4	N.Swarna	MCA	Database Management system	

## **Why Computer Science?**

Computer Science deals with the use of computers by human beings for speedy work of increased quality and productivity almost in all fields for ex. Government, Medicine and Hospitals, Entertainment – Photography and Animation, Weather forecasting etc., Trouble Shooting Programs, Implementing Websites, Features of Teaching in Computers and LCD Projectors used in classroom teaching.
