

Department of Geology

Geology is one of the core subjects for the B.Sc – MPG group. Earth is storehouse of many wonders and it is a study of science of the physical structure and substances of the earth. It withholds many valuable treasures such as renewable and non-renewable energy sources. Geology deals with the structure and history of the earth, formation of soils, petrology (Igneous, Metamorphic and sedimentary rocks), water resources, mineral exploration, hydrocarbons exploration (oil & petroleum), field studies etc.
