

S-MALL

Savithribhai Phule Women Empowerment Co. Store (S-MALL) is a pioneering venture established within the college with the primary objective of nurturing the entrepreneurial spirit and self-employment aspirations of its students. The store's mission is to inspire students to explore business opportunities and instill an entrepreneurial mindset to pave the way for their career development.

The governing body overseeing this initiative comprises the principal, vice-principal, two faculty members, and student representatives, ensuring a collaborative and inclusive approach in its management. The Store provides students with practical business experience by selling a variety of products like clothing, stationery, packaged food, footwear, and beauty items, fostering their entrepreneurial skills and mindset.

Sabala Hub

The Sabala Hub is yet another pioneering initiative within the college, primarily focused on nurturing the entrepreneurial spirit and self-employment ambitions of its students. Its mission is to encourage students to explore business opportunities and instil an entrepreneurial mindset, particularly in the service sector, to shape their career paths.

This venture is overseen by a governing body, inclusive of the principal, two faculty members, and student representatives, ensuring a collaborative and comprehensive approach to its management.

The Sabala Hub offers a range of beauty services, such as eyebrow threading, manicures, clean-up, nail art, mehndi designs, and more, catering to both faculty and students, with the ultimate goal of fostering entrepreneurial skills and mindset development among the student community.

Parents Teacher Meeting

Parents teacher meetings are an essential component of any educational institution's functioning. At our college, these meetings are scheduled meticulously on the second Saturday of each month. This regular interaction between parents and teachers serves as a platform to discuss students' academic progress, health, and attendance. It provides an opportunity for both parties to assess the student's overall development, identify areas of improvement, and set goals for the coming months.

To ensure that parents are well-informed about the college's ethos, infrastructure, and the opportunities it offers, an "INDUCTION PROGRAM" is organized for first-year students and their parents on the opening day of

the academic year to help parents understand the college's expectations and resources available to support their child.

Furthermore, an "IMPACT PROGRAM" is conducted before vacation periods to discuss students' growth and accomplishments and to encourage parental involvement in their children's academic journey. These initiatives foster a strong partnership between parents and teachers, ultimately enhancing the overall educational experience and success of our student.

The parent committee is the structure through which parents/guardians work together for the best possible education and other facilities at the college. Seek out opportunities to assist parents who are experiencing barriers to their involvement. The following committee has been constituted for the academic year 2022-2023

Kitchen Garden

A kitchen garden in residential institutions holds paramount importance as it not only provides a sustainable source of fresh, nutritious produce for residents but also fosters a sense of community engagement, promotes healthy eating habits, and serves as an educational platform. Beyond the physical benefits of consuming homegrown vegetables and herbs, the garden cultivates a shared responsibility, enhances well-being, and establishes a direct connection between students and the environment, contributing to a more sustainable and fulfilling communal living experience. We have planted saplings of brinjal, mirchi, onions, tomatoes and also seeded gongura, spinach, thotakura, methi, dania etc.
